

# PRODUCER CERTIFICATE

Product: PM 30-MG  
Article No: 2207720  
Serial No: 088230107  
Date of Inspection: 29.03.2023

We hereby certify that the product described has been tested before shipment and on the inspection date complied with the specifications stated in the product's operating instructions<sup>1</sup>.

Hilti recommends the tool is sent in for recalibration at regular intervals in order to verify its compliance with the applicable specifications, but at least once a year. The accuracy should also be field tested regularly, particularly prior to critical measurement tasks, and after the product has been subjected to harsh conditions<sup>2</sup>.

Hilti Corporation  
BU Measuring Systems

**Sriram Makineedi**  
**Head of BU Measuring**

**Walter Vallaster**  
**Head of Quality BU Measuring**

<sup>1</sup> The test method used has been derived from accepted values of natural physical constants, or has been derived by the ratio type of self-calibrating techniques. Unless otherwise specified, the product was tested under standard ambient (MIL-STD-810G). Please note that the relevant test centers are certified to ISO 9001 but not ISO/IEC 17025.

<sup>2</sup> Factors in particular extreme temperature fluctuations, humidity, shock, drop, etc., can affect the tool's accuracy. Hilti's operating instructions for the relevant product contain further information and must be consulted prior to use.
